

22 Aug 44
Contacted
British Forces

At dusk that evening (9 Aug) I started walking towards the British lines. I discovered that a large number of Germans were in the district so I returned to the barn. I remained there until 22 Aug when I contacted a British tank unit. During the time I was in the barn the Frenchman supplied me with some food. After contacting the British Forces I was sent to BAYEUX where I was briefly interrogated and sent to the U.K. by air.
